Picture Day-Oct. 29

All students will have their picture taken October 29. Picture Forms will be available online and sent home October 21.

Forms must be returned by November 7, if you would like to purchase school pictures.

Parent & Technology Safety Meeting-Oct. 30

Please join us for a community meeting about plans for the school year as well as technology and ways to help safeguard your children.

The meeting will be held after school, from 4:30-5:30PM.

Fall Carnival-Nov. 21

Our annual fall carnival (with games and prizes) will be held November 21. All are welcome to join us for a night night of fun and community. The cost is \$5 per person.

School Adventures & Learning

We've all been blessed teaching all of your kids. The school walls are beginning to fill up with all of the kids' hard work and we have already ventured out on a few field trips with them. We hope your kids are also having a blessed time as they join us each day, at Fellowship.

This Week

This week, students in elementary classes will continue learning how to prepare presentations in **Elementary Computer Class (using Google Slides)**. Students in all Music classes and Drama have started **working on the Christmas Program** and we are very eager to have you join us on **December 12 for a Walk Through Bethlehem**. The kids are putting a ton of hard work into it, to make it a very memorable experience. All are invited to the event and we pray it becomes an opportunity for people to learn more about and love Jesus more.

Dinner & Auction- December 5

Join us for our annual FCS fundraiser and a night out with friends and family!

Includes

- Salad, Dinner entree, Dessert
- Live Auction, supporting FCS

All proceeds go towards the FCS ministry and help us continue offering our lower tuition rates.

In order to make this event a huge success, we need your help! This is an FCS event and we can't do it without you.

If you have an item to donate or know businesses or people willing to donate, please have them drop off items to FCS. We are a 501(c)(3) non-profit, so all donations are tax deductible and this is an excellent opportunity for businesses and families to contribute to the ministry, while receiving some tax help/perks.

This week, the 4th and 5th Grade students will be taking a **science field trip to Outback Kangaroo Farm**, as they expand their knowledge in animal science.

The **Culinary Arts classes** are continuing to grow in their culinary knowledge and have completed some full meals from scratch, including a few pasta and chicken dishes as well as seared porkloin and mashed potatoes. They will be practicing and perfecting the dish served at our **December 5 Dinner & Auction**. We hope to see all of you and your friends and family there! The Dinner includes a salad, main dish and dessert. Yum!

Upcoming

Parent Meeting & Technology Safety: Please join us after school, on **October 30 (from 4:30-5:30PM)** for our first Parent Meeting of the year, where we will be answering any questions you have for the upcoming school year as well as sharing our vision for the school and this school year. The Lord has put a lot on our heart for this year and we would love to share it with you as well as put His vision into action.

At the meeting, we would love for you to stay a bit longer, as we follow up with **Technology Safety**.

At the school, we have monitoring systems and internet safety systems in place that block inappropriate sites and material from school devices, but we would like to share with all of you how important it is to monitor your child's technology usage and ways to do that.

This year, we have noticed some inappropriate saved files on some student's personal accounts and we want to have an open discussion about ways to help families prevent this. On average, the first inappropriate use of electronics starts very young, so please do come to the meeting.

Many electronic devices give students free range to anything they may be tempted to view and **without limits and security**, they are open to unlimited amounts of inappropriate sites and images. It is so important to check your child's device on a regular basis and to set limits and boundaries. We'd love to help and talk with you more about the many ways to do this.
